

Says

What have we heard them say?
What can we imagine them saying?

Thinks

What are their wants, needs, hopes, and dreams?
What other thoughts might influence their behavior?

The crops are fresh or not

Will it give high yield

A good crops may have been produced

May produce high yielding crops

What types of fertilizers using in this crop

What types of irrigational should be have used for this crops

A suitable prince for the crop could have been given

The crop may have been produced naturally

CROP PRODUCTION

Earlier it to more days for crop groth but now it takes less days for crop growth

The reason for this is that earlier they used natural fertilizers, but now they use synthetic fertilizers

The crops cost are should be correct

Crops that yield in less time should be purchased

In earlier time the food obtaoined through agriculture as good for the people but no the food is bad for peopel

Agricultural crop production should be done again in the old way

To produce good quality crops

Feels to satisfied

Does

What behavior have we observed?
What can we imagine them doing?

Feels

What are their fears, frustrations, and anxieties?
What other feelings might influence their behavior?
